Thursday, July
12th at 6:00 P.M.
at the Club
House.**

**Please respond if
you are unable to
make it. Hope to
see you there!**

Thanks,

- Bill Bach

A single lifetime, even though entirely devoted to the sky, would not be enough for the study of so vast a subject. A time will come when our descendants will be amazed that we did not know things that are so plain to them. — Seneca, Book 7, first century AD

July, 2007

From the President, by Pam Tarkington

In Memoriam

Phil Bailey

As all of you know by now, we lost a real friend of the Williamson Flying Club on July 4th. Phil Bailey died that day after losing a two-year battle with cancer.

He was a long-time member of the club who became more involved in club activities in recent years. He started the cosmetic committee and was

it's chairman and was on the Board of Directors for the past 2 years. Phil really loved our club—I vividly remember him admonishing us that we should take better care of our planes.

He was instrumental in organizing the reconstruction of the Taylorcraft, our LSA project—not only to give us a club project (he was very interested in bringing the club together as a

group) but to put us into the light sport group. In his honor, the Taylorcraft will have a plaque with his name.

His ideas as a member of the Board of Directors have guided all of us. The Williamson Flying Club has lost one but heaven has gained a true aviator. In his memory, the flag will fly at half mast during the next week.

FAA WINGS

On a lighter note, we thank

Bob Fratangelo and the FAA for the successful WINGS program that was held in June, and thanks to Corky Schoeneman for the BBQ! About 35 local pilots attended the meeting, which was held under the new WINGS program. For details on the new WINGS program, go to www.faa.gov/safety/awards/wings/

Upcoming Events

WFC's Flour Bombing and Spot Landing Contest will be Saturday July 14th at 9. Anyone interested in volunteering to help Mike with the event, call him at wfcflight@msn.com

Our Chicken BBQ will be August 5th. This event will be open to the public. Contact Bill Bach to order tickets.

The Rochester Radio Control Aircraft Club will be at the Williamson Sodus airport for a demo on August 11th (August 12th, rain date). The airport will be closed from 11-3. Invite your friends and family to see these amazing aircraft up close
